SUMMARY

Skilled software engineer with a focus on front-end development and valuable back-end proficiency. Managed the full lifecycle of web and mobile applications over three years, from requirement analysis to maintenance. Proven ability to collaborate efficiently in team environments across diverse projects. Experienced in building scalable, maintainable applications using Angular, React, and modern web technologies.

SKILLS

Technical: .NET, Angular, Git, Ionic, Node, React, React Native, SQL
Soft: Adaptability, Communication, Leadership, Problem-solving, Teamwork, Time Management

EXPERIENCE

Frontend Developer Intern — Aug. 2024 – Present
Sonat

- Resolved critical frontend bugs, improving user experience and application stability by efficiently debugging and implementing fixes.
- Added new small features, enhancing the platform's functionality and usability, which contributed to better user engagement.
- Upgraded project dependencies, ensuring compatibility and security while optimizing application performance and reducing technical debt.

AI Trainer — Mar. 2024 – Present
Outlier

- Facilitated AI learning through direct interaction, employing strong communication skills to clearly articulate complex technical concepts.
- Trained AI models to generate efficient code through diverse challenges, while evaluating outputs and creating robust test cases for accuracy and effectiveness.
- Developed and refined AI models through domain-specific queries, ensuring high accuracy and relevance while evaluating responses for quality and factual integrity.

Software Engineer — Mar. 2022 – Jul. 2022
Seva Development — Lalitpur, Nepal

- Spearheaded the implementation of key features, enhancing product functionality and ensuring high-quality web and mobile applications.
- Resolved complex bugs promptly, improving performance, quality, and responsiveness to deliver seamless user experiences.
- Collaborated with cross-functional teams, including product managers and designers, to ensure a smooth workflow and front-end excellence using React framework.

Software Engineer — Nov. 2018 – Jul. 2021
Bajra Technologies — Kathmandu, Nepal

- Elevated client satisfaction by effectively implementing requested features using modern web technologies, while maintaining high code quality and adhering to best practices.
- Guided and inspired a team of 5, fostering a culture of innovation and excellence, conducting code reviews, and ensuring high-quality deliverables throughout the SDLC.
- Worked with diverse technologies, including Angular, React, Ionic, .NET and Ruby on Rails, leveraging expertise in cross-platform mobile development to enhance product competitiveness.

EDUCATION

Fanshawe College — London, ON
PG in Mobile Application Development — *Sep. 2022 – Dec 2023*

Tribhuvan University — Lalitpur, Nepal
Bachelor of Science in Computer Science and Information Technology — *2014 – 2018*
